SUPPLEMENTAL RESPONSE

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

Responsive to the Official Office Action of December 2, 1999, and supplemental to the Amendment filed April 2, 2000 please enter the Substitute Specification, filed herewith.

REMARKS

Favorable reconsideration of this application is respectfully requested.

Claims 13-26 are pending.

The telephone conversation with Ex. Waks on May 24, 2000 is hereby gratefully acknowledged. During the conversation it was understood that the Applicants were requested to file a Substitute Specification. The specification contained in the USPTO file is apparently not the international application (PCT/SE97/01844) that should have been entered as per 35

USC §371. Rather, an amended version¹ of the international specification was inadvertently entered as the original application.

In order to clarify the present situation, Applicants file herewith (1) a copy of the international application that should be considered as the original application, (2) a marked up copy of the international application² and (3) a Substitute Specification. Please enter the Substitute Specification. No new matter is added.

In view of the present circumstances and in light of the provisions for entering a substitute specification as per 37 CFR 1.125, it is believed that the Examiner is in a position to act on the Amendment filed April 2, 2000.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
